The organization adopted the by-laws of the State Banking Association. The most important business considered was a proposition by President Jenkins to form a protective branch of the group to prevent fraud.

"The scheme," said Mr. Jenkins, "has been worked successfully by the Jewelers' Association. If a forged check is passed on a bank the forger is to be pursued and brought to justice at the expense of the bank association. Each bank is to be known by a number in order to keep the matter secret."

The proposition was referred to the Executive Committee. The bankers' association, which is a combination of financial institutions represented might be protected by insurance from any dishonest employees. The protection for the insurance is to amount to one-eighth of one per cent. of the capital.

Mr. Jenkins said one of the objects of the organization is to abolish the present unjust system of taxation. He said that companies compared with State banks have had little or no taxation to meet.

After the meeting the members dined at the Hotel Clarendon and then went to be held on the third Saturday in December.
